

YIPHOS[®] 2105

Technical Data Sheet

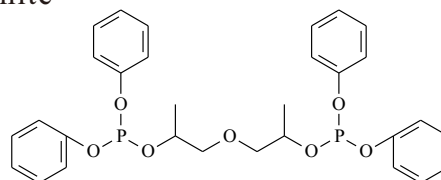

Introduction

Tetraphenyl Dipropylene Glycol Phosphite

$C_{30}H_{32}O_7P_2$

Molecular weight: 566

Cas No.: 80584-85-6

Physical

Appearance	Clear Liquid
Color(APHA)	≤50
Acid Value(mg KOH/g)	≤0.1
Refractive Index (25°C)	1.5570-1.5630
Density, g/ml (25°C)	1.164-1.190

Applications

YIPHOS[®] 2105 is a special diphosphite which is useful as a secondary stabilizer in many polymers, including PVC (flexible & rigid), polyurethane and other polymers.
